The Better Way

The tissues of the throat are nflamed and irritated; you rough, and there is more irritaion-more coughing. You take t cough mixture and it eases the critation-for a while. You take

EMULSION

and it cures the cold. That's what is necessary. It soothes the Mr throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.
